## **Risk profile**

### **Fund manager commentary**

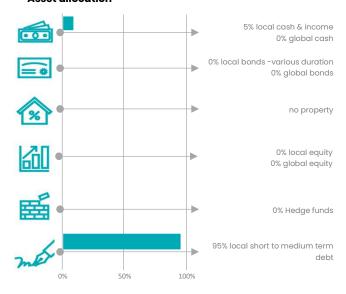

We are excited to launch this income product which places a modern and alternative emphasis on the importance of an income

#### **Fund Investment Policy**

The fund aims to achieve returns above the benchmark with lower volatility. To achieve this the fund will invest mainly in alternative income generating assets with a small percentage of cash. Investments to be included in the Aurora Enhanced Income Fund, will, apart from assets in liquid form and listed and unlisted financial instruments as allowed by the Act, consist solely of participatory interests of portfolios of schemes registered in the Republic of South Africa or of participatory interests or any other form of participation in portfolios of collective investment schemes or other similar schemes operating in territories with a regulatory environment which is to the satisfaction of the manager and the trustee as being of a sufficient standard to provide investor protection at least equivalent to that in South

The fund will not hold any traditional equities.

## Asset allocation

# **Fund Performance**

# Who This Investment May Be Suitable For

This fund is suitable for investors in need of regular income payments and higher yields than can generally be obtained from traditional income funds.

### Why You May Consider This Fund

Yield - the Fund returns a yield higher than most traditional income funds.

Low volatility - the majority of the assets held by the fund are not correlated to market or interest rate movements or cycles. Yield certainty - the yield on the fund will generally not move much throughout the interest rate cycle, therefore giving the investor certainty about what he or she will receive.

Exciting performance information coming soon!
